FY22 FTA Bus and Low- and No-Emission Grant Awards

FTA's FY22 Low- and No-Emission and Bus and Bus Facilities programs will provide \$1.66 billion in grants to transit agencies, territories and states across the country to invest in bus fleets and facilities. Funded by the President's Bipartisan Infrastructure Law, the majority of funded projects will use zero-emissions technology, which reduces air pollution and helps meet the President's goal of net-zero emissions by 2050.

MN	Prairie Island Indian Community	\$1,616,426	Low or No Emission	The Prairie Is Wing will rec electric buse train transit v maintain veh technologies vehicles that and help the emission goa through cons renewable ei electrificatio
MN	Bois Forte Band of Chippewa	\$739,500	Low or No Emission	The Bois Fort receive fundi buses to rep the efficiency and minimiz impacts in th northern Mir idle time in c and by emitt gasoline, red emissions.
MO	Bi-State Development Agency of the Missouri-Illinois Metropolitan District	\$5,412,960	Low or No Emission	Bi-State Deve Louis Metro, buy battery e buses that h useful life. Th the agency's

				charging equ health and q residents.
MO	The City of Columbia	\$2,896,675	Low or No Emission	The City of C buy battery e equipment fo adding these the city will r emissions ar staff to enab emission bus
MS	City of Jackson	\$8,714,400	Low or No Emission	The City of Ja will receive fi buses to sup new bus net maintenance reliability and for Jackson r
MT	Missoula Urban Transportation District	\$10,909,127	Low or No Emission	The Missoula will receive fi buses and ch diesel buses have exceed committed to vehicles to ze 2035 and, wi that goal.
MT	City of Billings, MET Transit Division	\$3,880,316	Low or No Emission	The City of B System will r buses, supp upgrades to workforce tr the city's tra improve syst the workforc
MT	Blackfeet Tribe	\$1,375,920	Buses and Bus Facilities	The Blackfee expand its bi support rece that serve th of Montana i counties. The space for dis services.

NC	Town of Cary	\$11,787,275	Buses and Bus Facilities	The Town of Cary will build a new bus maintenance facility for GoCary's fixed route service. The facility will be certified to LEED Platinum. The project includes current operations, bus storage, charging equipment, and
NC	City of Durham	\$5,745,600	Low or No Emission	The City of Durham will buy battery electric buses to replace diesel vehicles at the end of their useful life. The project will provide clean air and serve a high density population.
NC	City of Asheville	\$4,291,650	Low or No Emission	The City of Asheville will buy hybrid electric buses with battery packs. This project will include repair and storage facilities along a route connecting the downtown central business district to the airport.
NC	City of Concord	\$713,813	Low or No Emission	The City of Concord will buy a hybrid electric bus to replace an older vehicle at the end of its useful life. This project will improve reliability and reduce emissions while also reducing noise.
NC	City of Fayetteville	\$280,500	Low or No Emission	The City of Fayetteville will buy propane buses to provide dedicated service to residents. The project will reduce emissions and exceed the city's goals.
ND	City of Grand Forks	\$7,768,742	Buses and Bus Facilities	The City of Grand Forks will update its paratransit center, including storage, and will include green building features such as solar panels and the addition of a water reclamation system.

				wash, ensuring more secure
NH	Cooperative Alliance for Seacoast Transportation	\$7,736,284	Buses and Bus Facilities	The Cooperative Alliance for Seacoast Transportation is building a new facility for bus operations and a new facility for vehicle features such as transit operations under one roof expenses.
NJ	New Jersey Transit Corporation	\$44,677,500	Buses and Bus Facilities	The New Jersey Transit Corporation will receive funding for a bus garage, a public bus terminal services and electric buses
NM	City of Las Cruces	\$5,721,073	Low or No Emission	The City of Las Cruces is planning to replace aging buses with electric buses and create a second-line bus route in the main transit region of the city to reduce greenhouse-gas emissions by 887 metric tons
NM	New Mexico Department of Transportation	\$3,071,882	Buses and Bus Facilities	The New Mexico Department of Transportation is providing funding on behalf of the District to buy charging equipment, buy property, source energy provider, SCF, reduce greenhouse-gas emissions, and provide service to communities in New Mexico.
NM	New Mexico Department of Transportation	\$2,511,882	Low or No Emission	The New Mexico Department of Transportation is providing funding on behalf of the District to buy charging equipment and provide training as part of a pilot program

				a fully electric fleet by 2030, over the next five years.
NM	City of Las Cruces	\$2,170,214	Buses and Bus Facilities	The City of Las Cruces is seeking funding to complete maintenance on its existing fleet, allowing them to continue to operate their Transit fleet, and charging infrastructure to support the operation of electric fixed route service, providing access to job and other services.
NV	Regional Transportation Commission of Southern Nevada	\$6,737,042	Low or No Emission	The Regional Transportation Commission of Southern Nevada is seeking funding to purchase hydrogen fuel cell buses to provide clean, sustainable transportation for the community.
NV	Pyramid Lake Paiute Tribe	\$115,000	Buses and Bus Facilities	Pyramid Lake Paiute Tribe is seeking funding to purchase and maintain buses for their service area, ensuring consistency and reliability of service.
NY	Metropolitan Transportation Authority	\$116,000,000	Low or No Emission	The New York Metropolitan Transportation Authority will purchase battery electric buses to replace diesel buses in its fleet, as part of its workforce transition program. The Authority is also implementing its 5,800-bus fleet replacement program, an ambitious zero-emission goal.
NY	Capital District Transportation Authority	\$25,417,053	Low or No Emission	The Capital District Transportation Authority is seeking funding to purchase and maintain electric buses in the Capital District, ensuring the end of their useful life and improve service for residents in Saratoga and Albany counties.
NY	Rochester Genesee Regional Transportation Authority	\$16,000,000	Buses and Bus Facilities	The Rochester Genesee Regional Transportation Authority is seeking funding to purchase and maintain electric buses for its fleet, ensuring the reliability and maintenance of its service.

				improve service and repair needs
NY	Tompkins County, New York on behalf of Tompkins Consolidated Area Transit (TCAT)	\$8,740,975	Low or No Emission	Tompkins County will buy electric buses to replace older diesel buses. The project will improve air quality in Tompkins County.
NY	Rochester Genesee Regional Transportation Authority	\$7,043,331	Low or No Emission	The Rochester Genesee Regional Transportation Authority is using federal funding to buy electric buses and equipment. The project will improve air quality in Rochester.
OH	Central Ohio Transit Authority (COTA)	\$26,714,004	Low or No Emission	Central Ohio Transit Authority is buying electric buses to replace diesel buses. The project will improve air quality in Columbus, Ohio.
OH	The Portage Area Regional Transportation Authority	\$3,201,270	Low or No Emission	The Portage Area Regional Transportation Authority is buying electric buses to replace diesel buses. The project will improve air quality in Portage, Ohio.
OH	Stark Area Regional Transit Authority	\$2,393,600	Low or No Emission	Stark Area Regional Transit Authority is buying electric buses to replace diesel buses. The project will improve air quality in Stark County, Ohio.
OK	Central Oklahoma Transportation and Parking Authority (COTPA), dba EMBARK	\$6,745,732	Low or No Emission	EMBARK will buy electric buses to replace diesel buses. The project will improve air quality in Oklahoma City.
OK	Metropolitan Tulsa Transit Authority	\$6,666,105	Low or No Emission	The Metropolitan Tulsa Transit Authority will receive federal funding to buy electric buses to replace diesel buses. The project will improve air quality in Tulsa, Oklahoma.

				help the age emission flee
OK	Metropolitan Tulsa Transit Authority	\$4,800,375	Low or No Emission	The Metro pc will receive fi natural gas b that have ex expand its fl will allow the its RT66 line agency trans future.
OK	City of Norman, Oklahoma	\$894,963	Low or No Emission	The City of N buy compres replace buse useful life. Th of transit ser jobs, schools
OR	Tri-County Metropolitan Transportation District of Oregon	\$5,566,583	Buses and Bus Facilities	TriMet will re expand the E better supp service upgr including spa electric buse
OR	Oregon Department of Transportation, Public Transportation Division	\$4,632,050	Buses and Bus Facilities	The Oregon I will receive fi buses and in will also buik bus wash sta powered cov
OR	City of Corvallis	\$2,658,068	Low or No Emission	The Corvallis funding to bu build a charg charging stat diesel buses useful life.
OR	Oregon Department of Transportation, Public Transportation Division	\$2,081,883	Low or No Emission	The Oregon I will receive fi Area Metro t and install ch diesel buses useful life. Th serve disadv cities of Sanc

				essential for the Portland
OR	Oregon Department of Transportation, Public Transit Division	\$1,050,000	Buses and Bus Facilities	The Public Transportation Department funding to buy trips, ADA par routes that connect and Newberg
OR	Oregon Department of Transportation, Public Transit Division	\$612,000	Buses and Bus Facilities	The Public Transportation Oregon Department receive funding Empire Transportation fixed route, passenger intercity service
PA	Southeastern Pennsylvania Transportation Authority	\$23,360,000	Low or No Emission	The Southeastern Transportation Authority funding to install redundant power generators, and project will save of entirely zero
PR	AUTORIDAD METROPOLITANA DE AUTOBUSES (PRMBA)	\$10,000,000	Low or No Emission	The Metropolitan funding to buy replace older solar power and sustainable t
SC	City of Clemson dba Clemson Area Transit	\$3,930,000	Low or No Emission	Clemson Area to buy new zero buses to replace have exceeded will improve quality for student and resident surrounding
SD	South Dakota Department Of Transportation	\$1,067,774	Low or No Emission	South Dakota Transportation behalf of River Community Prairie Hills Transportation Community eight low-emission propane con

				propane fuel help reduce ;
SD	South Dakota Department Of Transportation	\$692,758	Buses and Bus Facilities	South Dakota Transportation behalf of Pra facility for bu an office are depot will als riders.
