**Category of Funding Activity:** Energy

**Category Explanation:**

**Expected Number of Awards:** 69

**Assistance Listings:** 81.255 -- Clean Energy Demonstrations

**Cost Sharing or Matching Requirement:** Yes

## Eligibility

**Eligible Applicants:** Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

**Additional Information on Eligibility:**

## Additional Information

**Agency Name:** Headquarters

**Description:** The Office of Clean Energy Demonstrations (OCED) intends to issue a Notice of Funding Opportunity (NOFO) entitled "Energy Improvements in Rural or Remote Areas FY24." The goals of this investment area are to deliver measurable and sustained benefits to people who live in rural or remote areas by funding replicable clean energy projects that lower energy costs, improve energy access and resilience, increase economic opportunity, and/or reduce environmental harm; demonstrate rural or remote energy system

approaches using climate-resilient technologies, business structures that promote economic resilience, accessible and appropriate financing mechanisms, and/or best practices in community leadership and engagement, and workforce development; and build clean energy knowledge, capacity, and self-reliance in rural and remote parts of America. Funding will support materials, equipment, time, labor, and other resources to build clean energy projects in rural or remote communities and run other allowable activities as proposed (e.g., collaboration, outreach, and engagement with Tribes and stakeholders, or workforce development programs). This Notice of Intent (NOI or Notice) describes a preliminary plan that will evolve during the Notice of Funding Opportunity development process.
