

2024 Science and Monitoring Grants in the Columbia River Basin

Applications closed

This request for applications is now closed. The information on this page is for reference only.

Summary

EPA's Columbia River Basin Restoration Program has released a request for applications for entities interested in improving the understanding of toxics and their effects on water quality in the Columbia River Basin by increasing the number, type, and scientific rigor of toxics monitoring projects in three program priority areas:

1. Characterization and spatiotemporal trend analysis.
2. Pathway identification.
3. Novel methods and approaches.

Cost share/match: The grantee will be responsible for a 25% non-federal cost share/match. Tribal applicants can cost share/match with either non-federal and/or federal funds. Tribal applicants who are selected under this competition can ask EPA to fully waive this match requirement.

Eligible applicants: State governments, Tribal governments, regional water pollution control agencies and entities, local government entities, nongovernmental entities, soil and water conservation districts, public or nonprofit institutions of higher education, as well as hospitals operated by state, Tribal, or local governments or that meet the definition of nonprofit at 2 C.F.R. § 200.1.

Funding Opportunity Number: EPA-R10-OW-CRBRP-2024-01

Assistance Listing Number: 66.962

Total Available Funds: \$15M

Minimum Application Amount: \$300,000

Maximum Application Amount: \$3M

Project Length: up to 5 years

Number of Awards Anticipated: 5 – 10

How to Apply

This funding opportunity is now closed. Applications packages were due no later than May 17, 2024, at 11:59pm (Eastern).
