For Questions Please Contact

PROTECTformula@dot.gov

The Bipartisan Infrastructure Law established the Promoting Resilient Operations for Transformative, Efficient, and Cost-Saving Transportation (PROTECT) Formula Program with funds apportioned directly to State departments of transportation to help make surface transportation more resilient to natural hazards, including climate change, sea level rise, flooding, extreme weather events, and other natural disasters through support of planning activities, resilience improvements, community resilience and evacuation routes, and at-risk coastal infrastructure.

PROTECT Formula Program Implementation

- [PROTECT Formula Program Implementation Guidance](#)  provides information on funding; eligible activities, facilities, and costs; and requirements of the PROTECT Formula Program.
