The Flood Mitigation Assistance grant program is a competitive program that provides funding to state, territory and local governments and federally recognized Tribal Nations. Since the [National Flood Insurance Reform Act of 1994](#) was signed into law, funds are used for projects that reduce or eliminate the risk of repetitive flood damage to buildings insured by the [National Flood Insurance Program](#).

FEMA chooses recipients based on the applicant's ranking of the project, eligibility, and cost-effectiveness of the project.

FEMA requires state, local, federally recognized tribal governments, and U.S. territories to develop and adopt [hazard mitigation plans](#) as a condition for receiving certain types of non-emergency disaster assistance, including funding for [hazard mitigation assistance](#) projects. For more information, refer to the [Hazard Mitigation Assistance Guidance](#).

## Fiscal Year 2024 Notices of Funding Opportunities
